Title : Storage Sales - N series Version 2

Vendors : IBM

Version : DEMO

NO.1 What is the maximum raw capacity of the N7700-A20 model?

- A.420TB
- B.504TB
- C.840TB
- D.1176TB

Answer: C

NO.2 One server in the LAN does a lot of disk I/O and is starting to experience a performance bottleneck.

Which solution provides the highest performance at the lowest cost?

- A.put a SAN adapter in the high disk I/O server
- B.add a second LAN switch to the network
- C.add another LAN adapter to the high disk I/O server
- D.put all servers on a SAN

Answer: C

NO.3 A customer has an existing SAN for their AIX servers. They want to add their Windows servers for file sharing.

What is the lowest-cost solution to utilize the existing SAN storage pool for the Windows servers?

- A.IBM Cisco MDS 9506
- B.IBM System Storage N3600
- C.IBM System Storage DS4700
- D.IBM System Storage N5300

Answer: B

NO.4 Which tool should be used to size the usable capacity of a proposed N series configuration?

- A.Capacity Magic
- B.e-config
- C.N Series Operations Manager
- D.perfmon

Answer: A

NO.5 An existing N series customer has two N series boxes in two geographically distributed facilities. The customer wants to improve DR functionality.

Which N series software function allows for an RPO of less than one minute?

- A.SnapMirror
- B.SnapRestore
- C.SnapVault
- D.SnapLock

Answer: A

NO.6 Where is the SAPR Guide for N series systems found?

- A.IBM Sales Manual for the specific model
- B.IBM Installation and Planning website
- C.IBM PartnerWorld Solution Assurance Library
- D.e-config

Answer: C

NO.7 An SMB customer with only Windows servers wants to set up a common storage pool.

Which network issue is most important to consider?

- A.have all devices on the same network
- B.put the largest servers on the same network as the storage
- C.have the storage on a separate subnet from the servers
- D.put the smallest servers on the same network as the storage

Answer: C

NO.8 A customer is facing a number of regulatory issues in terms of maintaining a permanent copy of data.

Which software module should be included to meet this requirement?

- A.SnapVault
- B.SnapMirror
- C.SnapLock
- D.SnapDrive

Answer: C
